

Submitter: Rod Hickerson
On Behalf Of: Amity Rapid Flashing Beacon for Pedestrian Safety
Committee: Joint Committee On Ways and Means Subcommittee On
Capital Construction
Measure, Appointment or Topic: SB5531

My wife and I have had a number of close calls with vehicles when attempting to cross 99w in Amity as pedestrians. Since our residence is on the east side of town, but most businesses are on the west side, it is necessary to cross the highway often. With the volume of traffic having increased greatly in recent years the situation has become much worse and I believe some kind of safety enhancing measures need to be initiated.
