

Submitter: Steyn Pearson

On Behalf Of:

Committee: Joint Committee On Ways and Means Subcommittee On
Capital Construction

Measure, Appointment or SB5531
Topic:

I am writing to support Path Home (PH), who provide shelter and housing services for houseless families in Portland. Of all the folks working on this in Portland I believe PH has the solution. It is essential to support children and end the cycle of poverty.

Path Home is working to create a co-located housing, shelter and services center specifically focused on homeless families with children.

With the help of Representative Chotzen and Senator Pham, we are seeking a \$8 million appropriation from the Oregon Legislature for this innovative project.

This money would be spent on solutions for problems we have been trying to solve.
