

Submitter: Cheryl Conway

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: SB238

Chair Kropf, Vice-Chairs Chotzen and Wallan, and other members of the House Judiciary Committee,

SB 238 proposes to expand the use of unmanned aircraft systems by law enforcement agencies without warrants and review, in ill-defined situations. There has been no evidence that current law is insufficient as it allows surveillance in exigent circumstances. This bill is unnecessary and threatens to undermine privacy rights.

Please vote no on SB 238.

Respectfully,
Cheryl Conway
Astoria, OR
