Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

SB238

I am writing to say I oppose this measure. Drones are already in widespread use by police forces and continuing to expand those privileges is unnecessary. Police forces across the country have constantly continued to get expanded freedoms to "police" the people over the years. These expanded freedoms are always billed as an increase in safety to the people. This promise has never panned out. How about instead of drones and armored vehicles more training, accountability, bikes and beat walking?
