HB2251

Dear Senator Frederick,

As a constituent of yours, I'm writing to urge your support of HB 2251A. We have grandchildren who are in schools in Portland, and we know from their reports that cell phone usage is constant and disruptive. Middle and high school experiences are challenging enough without adding social media to the school environment. With low test scores and high mental health distress, we all must take steps to ensure that our schools focus on learning and building appropriate, healthy relationships. Cell phones disrupt both!

Thank you for your support,
Sue Miller
