

Submitter: Andrea Boydston

On Behalf Of:

Committee: House Committee On Emergency Management, General Government, and Veterans

Measure, Appointment or Topic: SB181

I oppose using any research facility from using public funds to directly or indirectly fund medically necessary or unnecessary laboratory research on any animal dogs, cats included, classified under pain and distress categories. I oppose this research. Period!

I suggest that the researchers doing this laboratory research use themselves as subjects for the pain and distress projects. It will go much faster and be much less expensive. The persons will be able to voice what hurts and what does not in a nano second!
