

Submitter: Kathryn Fox

On Behalf Of:

Committee: House Committee On Emergency Management, General  
Government, and Veterans

Measure, Appointment or Topic: SB181

It's been shown that outcomes from research on animals often doesn't translate to humans. Putting an animal through a lifetime of stress is just barbaric. Every one of us has anxiety when faced with a medical procedure and yet these animals are put through numerous procedures that involve pain, great distress and suffering. That is their life! It is wrong. There are better ways of getting results without causing horrific stress and pain. Stop this abuse and pass SB 181.
