Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

SB926

We have owned property in Detroit since 1990, 30 years this summer. Worked my entire life in the piping industry and paid my taxes. This fire took everything from us. It was a nightmare to be woke up at 2-am and have less than 15 minutes to evacuate. We could only grab some pictures and jump into our cars to find us driving through a tunnel of fire all the way to Lyons. This impacted us emotionally, and physically. This has devastated our family in losing our home, safety and general trust in our county leaders. We are angry and frustrated that it has taken this long to settle. PacCorp keeps trying to postpone the trials and influence the senate while we continue to suffer for (5) years. We pray that these greedy corporate bastards don't ruin another family in their wake of mistakes. Thank you
