

Submitter: William Schneider

On Behalf Of:

Committee: Senate Committee On Health Care

Measure, Appointment or Topic: HB3824

Select health committee, this bill would be a true public health atrocity for Oregon residents. Pts have minimal training in spinal manipulation or acupuncture and this bill would allow them to perform these services while receiving next to no training. I studied for many yrs to learn how to perform spinal manipulation safely as chiropractor. Please stop this last minute grab for expanded scope for Pts.
