

Submitter:

Michelle Graas

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

SB238

Please reject this bill, which will permit more warrantless surveillance of Oregonians and create a chilling effect on our communities. At a time when more and more of our neighbors are threatened by the federal government and fear participating in cultural events, grocery shopping, educational activities, and other activities central to everyday life, expanding such unnecessary oversight causes real harm and damage. Please vote no on this legislation -- it's not necessary and it hurts us all. Thank you for your consideration.
