

Submitter: Patricia Fraser

On Behalf Of:

Committee: House Committee On Emergency Management, General Government, and Veterans

Measure, Appointment or Topic: SB181

I SUPPORT EXTENDING SB 181 TO DISCONTINUE USE OF PRIMATES IN MEDICAL RESEARCH.

As a human being on this planet and American citizen, I cannot believe that I actually need to be writing this to keep our species from DELIBERATLY EXPERIMENTING ON ANIMALS, LET ALONE PRIMATES! What goes around comes around, and any person voting in any way to support unnecessary research is guilty of animal abuse and exploitation which I wish were punishable by law. COME ON PEOPLE, WAKE UP!

We already know to a large degree what sickens us, which is largely promoted by various industrialized industries (sugar, chemical additives, addictive substances, gross overprocessing etc.), and big pharma which stands to profit. Why not focus on truly educating the public instead of hiding behind helpless animals to "find a cure" when so many answers are in front of us in the form of self control and prevention?????
