Committee: Joint Committee On Ways and Means Subcommittee On  
Capital Construction  
Measure, Appointment or Topic: SB5531

I urge you to provide the funding that has been requested to repair and reopen the Osborn Aquatic Center. It is a crucial resource for individuals with disabilities and rehabilitation needs, including members of my family, as well as serving the essential service of being a place that young children learn to swim, an affordable source of exercise, and a community hub.

Thank you,
