Capital Construction

Measure, Appointment or SB5531
Topic:

As a proud member of the Corvallis community, I wholeheartedly support the continued investment in and development of the Osborn Aquatic Center. This facility is far more than just a swimming pool—it is a vital hub for health, recreation, and connection for people of all ages and abilities.

From swim lessons for young children to lap swimming for seniors, the Osborn Aquatic Center provides inclusive and accessible programs that promote physical wellness and water safety. It's a place where families gather, friendships are formed, and individuals build lifelong healthy habits. Especially during the summer months and school breaks, it offers a safe, supervised, and engaging space for youth.

In addition to its community benefits, the Center also supports our local economy by hosting swim meets and events that bring visitors to the area, supporting nearby businesses and hotels.

I urge city leaders and residents to continue supporting the Osborn Aquatic Center—not only as a recreational resource, but as a cornerstone of community well-being in Corvallis.

Sincerely,
Juli Rodriguez
