

Submitter: Paulina Cockrum

On Behalf Of:

Committee: House Committee On Revenue

Measure, Appointment or Topic: HB3962

As a small rural primarily residential community is taxed in the summer months by the influences of tourism in our community. As a City Councilor I have seen first hand how many calls our police and fire departments must cope with. They have experienced increasing calls due to the influx of persons on the North Coast most weekends and all summer. To be able to use what lodging taxes we do collect the city more easily meet the increasing demands being placed on our services. Please vote yes to allow communities to decide how to spend their tax income from tourism.
