I live in Philomath with my wife and 7-year-old son. Since my son was born, Osborn has been an important mainstay of the community for us. We have enjoyed swim lessons, many fun days of indoor and outdoor open swim, a birthday party, and running into other folks we know in the community. It has been sad and hard to be without Osborn since the corrosion was discovered. Our son was just reaching a point last summer of learning to swim independently, but now he never gets in the pool to reinforce and build on those skills. We hope to have Osborn fully up and operational again in the not-too-distant future. Thanks to Senator Gelser for her support of this project!
