

Submitter: Marjory Morford

On Behalf Of:

Committee: Joint Committee On Ways and Means Subcommittee On  
Capital Construction

Measure, Appointment or Topic: SB5531

I am a big supporter of Path Home and truly believe they are making a big difference in helping homeless families. It is tragic to me that there are any homeless families but there are and they need assistance. This request for funds for Path Home is to support their capital campaign to build a building that will provide services that are critical to the stability of these families. They have suffered a major trauma when they lose their homes. Getting back into a stable home is not just about finding the right place. They also need services and the Path Home campaign to build a services building will address that need. Please vote yes for \$5 million in funding for PathHome.
