

Submitter: Stacy Drake

On Behalf Of:

Committee: Joint Committee On Ways and Means Subcommittee On  
Capital Construction

Measure, Appointment or Topic: SB5531

I am a resident of Corvallis, Oregon in support of SB 5531. My family, neighbors and I have brought sick and Injured wildlife to Chintiminni Wildlife Center over the years for care. The Wildlife Center provides much needed service to wildlife because it is the only such place that provides care to wildlife. Also, I was a teacher for years with the local school district and would bring students on field trips to Chintiminni to learn about local wildlife and what to do if a sick animal is found. I feel the students came away with a lot of knowledge about wildlife from the excellent learning experience the staff gave to the class. Chintiminni provides a valuable service to the community at large and needs the grant to keep the good work. Thank you, Ms. Stacy Drake, Corvallis, Oregon.
