

Submitter: Jennifer Spring

On Behalf Of:

Committee: House Committee On Emergency Management, General
Government, and Veterans

Measure, Appointment SB181
or Topic:

It is not difficult to imagine the great suffering an animal would experience when undergoing laboratory experiments. There are very many other ways of proving scientific hypotheses.

It's very important to treat all living beings with reverence and protection. When we reserve compassion for some species and not others, we quickly lose our humanity.

Thank you.
