Capital Construction

Measure, Appointment or SB5531
Topic:

As a Corvallis resident, I support the request to supply funds (\$5M) to start repairing the roof and structure of our community swimming pool, the 'OSBORN AQUATIC CENTER'. It is a valued flagship and iconic health and fitness facility for all the residents of our town and beyond, especially the youth and senior population. Since it closed, it has been like a big hole in our town's fabric. It sits silent and unusable needing funds, too much for our local means, to refurbish and get going again on its mission.

Since it had to be closed, it has been sorely missed by everyone. We need help to reopen it as soon as possible; it has been a workhorse in the past supporting the wellbeing and health of so many community members. I urge you to grant \$5M to the 'OSBORN AQUATIC CENTER' to enable us to get started on the repairs without delay.

Sincerely, Roy Wiskar
