

Submitter: Janey Powell

On Behalf Of:

Committee: Joint Committee On Ways and Means Subcommittee On
Capital Construction

Measure, Appointment or SB5531
Topic:

The Osborn Aquatic Center in Corvallis is not just a local community center but one that greatly benefits many of our youth swimmers all over the state of Oregon. Without funding, this special 50 meter pool will not have the funding to fix the rooftop to open the pool back up for our swimmers to compete and train. With only a few 50 meter pools in Oregon, our swimmers cannot compete, giving them opportunities to achieve USA qualifying times to enter national meets. Advanced entry times for our youth secures more scholarship opportunities all over the US for continued college education. With astronomical college education costs, scholarships are a great way to help our community of swimmers from all over the state of Oregon. We ask for you to consider lottery funding to go towards renovating the roof at Osborn.

Thanks you,
Janey Powell
