

Submitter: Tony Cadena

On Behalf Of:

Committee: Joint Committee On Ways and Means Subcommittee On
Capital Construction

Measure, Appointment or SB5531
Topic:

Esteemed Legislature:

Osborn Aquatic Center needs substantial repair that is beyond the School District and the City of Corvallis budgets. People from throughout the state, swim and recreate at the Center. It provides exercise, swim lessons, and fun in classes and open swim for all ages, lap swimming, high school team practice and meets, a therapy pool, plus additional outdoor facilities, a fun slide and areas for all ages from babies to Seniors. There are additional areas indoors for summer meals for kids, and community meetings. Unfortunately, the repair needed is expensive. In order to continue all of these programs, financial help is needed from Capital Construction.

Osborn is an asset to the entire state and beyond the ability of one city and school district to address, by themselves.

Thank you.
