

Submitter: Teresa Mueller

On Behalf Of:

Committee: House Committee On Emergency Management, General
Government, and Veterans

Measure, Appointment SB181
or Topic:

Please support SB181 and enlarge protections to primates used in breeding and research. It is barbaric that we are still using live animals--sentient beings--for this purpose, when other methods are now available. Please end this totally unnecessary practice. Our society will be the better for aligning our scientific and medical practices with the ethics of an advanced modern culture.
