

Submitter: Hillary Williams

On Behalf Of:

Committee: House Committee On Emergency Management, General  
Government, and Veterans

Measure, Appointment or Topic: SB181

I support expanding SB181 to include ending the use of primates in breeding and research. This is cruel and unnecessary, as well as archaic. Modern technology allows for research to be accomplished in ways that eliminate abuse and harm to animals. Please get with the times and allow these intelligent creatures to live out their days in peace.
