

Submitter: Maureen O'Neal

On Behalf Of:

Committee: House Committee On Emergency Management, General
Government, and Veterans

Measure, Appointment SB181
or Topic:

I strongly support expanding SB181 to include ending the use of primates in research. Primates are members of our own family, and not only very intelligent, but very complex emotionally, as well. they cannot withstand this kind of captivity or testing without great suffering, and testing other animals than humans does not translate to humans well enough to incur this horrible cost. Please include primates in SB181!!
