

Submitter: Susan Willis

On Behalf Of:

Committee: House Committee On Emergency Management, General
Government, and Veterans

Measure, Appointment SB181
or Topic:

Please consider this a plea to make the right decision to end scientific testing on all animals. It's inhumane, the results of experiments are seldom applicable to humans and are often misleading. Please support alternate testing methods that do not involve animals. The more resources we sink into developing alternate methods, the sooner we can refine them into validated, meaningful, and less costly tests. It is just immoral and cruel to continue using sentient animals for such research. There's no excuse for it!
