

Submitter: Jerolene Richardson

On Behalf Of:

Committee: House Committee On Emergency Management, General
Government, and Veterans

Measure, Appointment or Topic: SB181

I support expanding SB181 to include ending the use of primates in breeding and research. I also fully support the ending of all research on all animals. All we hear about anymore is AI and all that this technology will improve our lives. What about the rest of the creatures that share this planet with us. Use technology not animals to further our medical research.
