

Submitter: Matthew Goodfellow

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB243

Terrible piece of legislation, showing ignorant policy makers who do not understand what would make a real impact change. It's fake legislation to make someone feel like they did something, but doesn't address any real problem.

This does nothing except to destroy businesses and law abiding citizens. There is no data to support any benefits and it would do nothing but block rights set by the Constitution, and they know it.

The writers of this possess some Nazi level thinking, undermining human rights.
