As an American citizens i was born with the right to hold arms and those rights are not to be infringed upon. Any alterations to the 2nd ammendment is an infringement. Oregon has doubled down on being a sanctuary state so it's important now more than ever before in history that law abiding citizens of this state have the right to possess weapons so we can protect our families and property. Criminals are flocking to Oregon because they know they have protection here, the law abiding citizens now feel less safe and protected, so restricting our gun rights is not an option.
