Sharon Hill

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB243

This does nothing to stop criminals it makes law abiding citizens helpless and unable to protect themselves and their families. Criminals do not follow the law. This only hurts law abiding citizens and takes away our rights! Some women need protection now, and once they pass the background check should not have to wait to get that protection immediately and also be able to carry that protection everywhere in public to protect themselves, but this goes for all law abiding citizens not just women. Everyone has the right to protect themselves!
