Senate Committee On Rules

Measure, Appointment or Topic:

SB243

Dear Senators, I appose this legislation. I lived in California both before and after the background check waiting period was implemented and it had no affect on crimes of passion or other crimes is was identified to prevent. This is an attack on firearm ownership of good citizens. It has no provision for conceal carriers, who are more regulated that the standard firearm owner. Criminalizing firearm owners are CHL owners is shameful and will not prevent crimes. If California is the model, then crime will increase if this law is passed.
