

Submitter: Christi Siedlecki
On Behalf Of: Grants Pass Clinic LLP and Oregon MGMA
Committee: Senate Committee On Health Care
Measure, Appointment or Topic: HB3134

Grants Pass Clinic spends well over 200 hours per week processing prior authorizations. That's over 2 work days per week per provider just on PA red tape. Additionally, PAs often delay care or waste time due to confusion from even the insurance company about what is required. Primary Care Providers are getting hit from all sides. Please reduce our administrative burden in any way you can. Please support this bill.
