

Submitter: Jacqueline Wilson

On Behalf Of:

Committee: House Committee On Emergency Management, General Government, and Veterans

Measure, Appointment or Topic: SB181

As an Oregon resident, I'm asking you to please support SB 181, which will prohibit state funding for experiments that cause the most suffering on dogs and cats at university laboratories. Additionally, I encourage expanding the bill to close down the OHSU primate facility in a responsible and humane way for all concerned—benefiting both the animals and the workers involved. I have been writing letters to my senators and my congress men/women for many years now to encourage them to write legislation that would finally close down the OHSU cruel and unnecessary monkey lab. Don't be fooled by youtube videos of monkeys in outdoor enclosures. These primates are taken to lab facilities and experimented on in the most cruel and inhumane ways. These sentient beings are not given the choice to stay healthy. They are injected with poisons and tortured in cruel experiments. No animal should be subjected to this abomination. Please support this bill and end cruelty to dogs, cats, and monkeys in these archaic labs.

Sincerely,

Jackie Wilson B.A., M.A.T.
