Committee: House Committee On Emergency Management, General
Government, and Veterans

Measure, Appointment or Topic: SB181

I support expanding SB181 to include ending the use of primates in breeding and research. Studies have shown that primates experience emotions such as joy and sorrow just like we do. They have friends and need love too. All of this translates to the sense that conducting research on primates is similar to conducting research on our kids. It shouldn't be tolerated in this state.
