

Submitter: Mary Lang

On Behalf Of:

Committee: House Committee On Emergency Management, General Government, and Veterans

Measure, Appointment or Topic: SB181

I urge you to support this measure to put an end to the suffering that primates are experiencing at OHSU's research center. Humans and technology has evolved such that scientific experimentation on animals is no longer productive or necessary. In Oregon we are a leader in passing laws that prevent animal cruelty yet we continue to fund these experiments on primates who more than any other animal are the most like humans. It would be sheer denial to think they don't suffer like we do. These primates belong in sanctuaries not laboratories. End OHSU's research primate center once and for all. Let's show the rest of the country that Oregonians put compassion before profits.
