

Submitter: William Burt
On Behalf Of:
Committee: Senate Committee On Rules
Measure, Appointment or Topic: SB243
To the Committee:

SB 243 is just one more attempt to chip away at our Second Amendment rights. Presumably the intent of this bill is to reduce gun violence. It won't work, because violence of any kind is the result of human depravity. Only God can mend a depraved human soul. Firing a gun requires someone to pull the trigger; a gun doesn't fire itself. Besides all this, criminals (by definition) have no incentive to obey the law; they will always find ways to obtain firearms on the black market. SB 243 (and other similar bills) have the effect of depriving law-abiding citizens of any means of self defense.

Please vote "NO" on discharging SB 243 from committee.
