

Submitter: Marc Duyck
On Behalf Of: MGD
Committee: Senate Committee On Health Care
Measure, Appointment or Topic: HB3134

I am writing to support HB 3134. As a physical therapy provider for over 25 years, I have seen time and time again delays in the start of care for my patients due to onerous prior authorization requirements. I have also experienced this as a patient as recent as 2 months ago.

Thank you Rep Nosse for your support of this legislation.

Keep health insurance from delaying care for those with pain, and health conditions: they are preventing patients from getting medically necessary care.

Marc Duyck, PTA, MEd. CSCS
