SB243

The state/counties/cities will not fiscally be able to fund this bill, especially considering the fact it is unconstitutional and will be challenged in court! Making more gun free zones and adjacent areas where we cannot protect ourselves is just unreal! Having more fees and restrictions to FFL'S will cause a greater financial burden on them and many will have to close down shop making the state lose more small businesses and the tax income from them! All this bill accomplishes is creating criminals out of gun owners and enabling the criminals instead of the other way around. The money should be spent on making Oregon a better and prosperous state again
