

Submitter: Rebecca Compton

On Behalf Of:

Committee: House Committee On Emergency Management, General Government, and Veterans

Measure, Appointment or Topic: SB181

Dear Oregon House Legislature members,

I am reaching out to support prohibiting what really amounts to animal torture for very little benefit to humans. This point has been demonstrated repeatedly and with AI models this outdated and inhumane model needs to stop. These animals suffer on a level that is close to impossible for us to fathom. We are above this. It is so unbelievably stressful working and knowing my tax dollars are being spent in such a barbaric and pointless way. Dogs used are often Beagles as they are so loyal and trusting, they will continue to tolerate massive painful experiments without getting aggressive. Primates are incredibly intelligent creatures who suffer untold anguish. I truly hope you realize you have the power to make a massive difference in how we as humans treat these sentient beings and we can do better

Thank you for considering my input
