The cruelty that these primates have been enduring beginning in 1962 needs to be closed. They are intelligent and need our help to stop the pain and suffering. The video shown in the ads is terrifying showing babies being taken from their mothers and being scalded. The fear on their faces and the pacing and rocking in the cages, do not look as though they are being treated humanly. What else have they done to these primates?

They cannot escape your grabbing hands.

OHSU wants to keep the program open, so they can collect the large government grants to help OHSU open. I understand the merger was terminated due to lack of financial.

We need to be the voice for these primates. "If OHSU can't care for a monkey, how can they care for you?"

Terminate the program.
