SB243

Can any of the deciding bodies on this matter truthfully see or reason that this will in any way shape or form reduce crime? Or ANY of the "gun control" bills being discussed in Oregon at the present time? These bills are a huge waste of time and taxpayer dollars. As criminals do not obey the laws as written. Writing more will only inhibit law abiding citizens. Period. You are all smart folks that should be able to see that. If you need to fulfill political promises or make like your party is doing something for its constituents boost school security, or something useful.
