On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB243

This bill only works to further subvert the intent of the founding fathers. Additionally, there is no such data that supports this bill. I have emailed several sponsors requesting the data they say supports this bill. I have not received any reply even though weeks have gone by.

Additionally, when the bulk of people (over 80%) oppose this bill, you cannot in good conscience pass it and claim to "represent Oregonians". The true position of representation would be opposition.
