

Submitter: Michael Brainard

On Behalf Of:

Committee: Senate Committee On Education

Measure, Appointment or Topic: HB2307

This is a simple bill that allows for school districts to roll out the conversion of lights to more energy-efficient systems over a more extended period. If this bill were not to pass, you would likely see a hodge-podge of different lights. One light LED, another fluorescent fixture, different color temperature lights, etc.

With this bill passing, school districts could design a plan to convert lighting into sections.
