SB243

I am in opposition of This bill will only effect law abiding citizens it will make it easier for criminals to commit crime with no recourse. It also takes away the ability for your constituents to not be a victim. There is no way are state will be able too financially implement as it is. We are already way behind the curve on things that could actually benifit from the funds like the schools roads library's so on and so forth that are already struggling with being available look at the funding struggles for law enforcement and are schools are struggling we have problems with the drug problem hospitals and ability to effectively police policies that are already in effect. This will do absolutely nothing but hinder and make some criminals with out even knowing they are especially with the adjacent grounds

Thank you for taking the time to read

Sincerely your constitution
