Measure, Appointment or Topic: SB243

Oregon Legislature - making William Pitt's observation on "necessity" being "the plea of tyrants" into an axiom. It penalizes a group of Oregonians/Americans who have been shown in a number of studies to be more law abiding than law enforcement. Don't beat around the bush legislative people-just come out an say it..."We are your masters, you will obey, you will not defend yourself and live and recreate only as we tell you...OR ELSE." Now don't you feel better finally saying something honest. The results of the bulk of this legislative session would be too toxic to be even included in sewage. Your ignorance is outweighed only by your arrogance.
