

Submitter:

Celia Telesco Fazio

On Behalf Of:

Committee:

Senate Committee On Education

Measure, Appointment or Topic:

HB2251

I am writing to encourage the state of Oregon to vote YES on house bill 2251. I believe that phone-free school policy should be required by all school districts in Oregon to help reduce classroom distraction, improve academic performance, and most importantly — improve youth mental health. There is an epidemic of youth depression, anxiety, and loss of mental focus occurring as we speak. We MUST do something. This state-wide school policy will help - and even if you don't necessarily believe that it will, it certainly won't hurt.

Thank you for supporting this bill!

Celia Telesco Fazio
