Measure, Appointment or Topic:	SB926

I SUPPORT [SB 926 A].

Duh.

Why should the innocent ratepayer pay damages an electric company caused?

How long has this practice of squeezing the innocent ratepayers for an electric company's screw-up(s)?

Why should insurance ratepayers pay an increase in insurance premiums for damages caused in another state? (Hurricanes, Tornados, Earthquakes for examples.)

David S. Wall

Mr. Oregon Concurs and says, "The issue of defensive spaces to prevent damages goes both ways. A lightening strike on a poorly kept rural property resulting in a wildfire may make the property owner liable. An 'Act of God' defense (Lightening strike) may not be a successful remedy to negate liability."
