Committee: House Committee On Emergency Management, General  
Government, and Veterans

Measure, Appointment or Topic: SB181

I support SB 181, prohibiting state funding for experiments that cause the most suffering on dogs and cats at university laboratories. This research is unnecessary and wasteful, not to mention torture for the animals. Plus, there are viable options that don't use animals and many other Universities and research centers are using these alternative models. I also ask that the bill is expanded to close the OHSU primate facility, ending the years of suffering for thousands upon thousands of primates in cruel and unnecessary experiments. Non-human animals have suffered enough at the hands of humans.
