

Submitter: Beth Lewis-Anderson

On Behalf Of:

Committee: House Committee On Emergency Management, General
Government, and Veterans

Measure, Appointment or Topic: SB181

I support expanding SB181 to include ending the use of primates in breeding and research. There is plenty of research already, testimony has stated these methods are barbaric and outdated. It's a stain on OHSU to have them engage in this kind of testing. I believed that OHSU was further advanced and humane. Continuing to use monkeys for research is sending the wrong message and warrants losing investment and support. Be better OHSU. I know you can.
