

Submitter: Arlene Merems

On Behalf Of:

Committee: House Committee On Emergency Management, General  
Government, and Veterans

Measure, Appointment or Topic: SB181

Medical testing on animals is barbaric and cruel and must end. This important bill will prohibit state funding for the experiments that cause the most suffering on dogs and cats at university laboratories. This bill could also stop the suffering of the 5,000 monkeys at the Oregon National Primate Research Center at OHSU. The Center currently subjects nearly 1,000 monkeys each year to shocking substance abuse and infectious disease experiments—often using pregnant mothers—before they are killed. These experiments are cruel and unnecessary. Please support SB 181 and stop the suffering!
