Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB243

There is no lawful reason for the delay in the transfer of a firearm from the dealer to the buyer. This is not being proposed as a meaningful way to stop violence but rather to punish law-abiding citizens for wanting to protect themselves. Criminals do not follow the law, thus, this proposed legislature and all of the other AWFUL propositions in regards to gun control lately only punish those of us who follow the law. Gun control in and of itself is completely unconstitutional. It is not the government's business who owns or doesn't own a firearm. The constitution very clearly states that We The People have the right to bear arms and I do not recall seeing anything that says we have to have a permit to buy or own or use guns and I don't recall it suggesting, implying or stating that the government should keep records and approve or deny individuals from being able to purchase, own or use a firearm.

This has to stop. Anyone with common sense will see that this is power-play by the tyrannical bureaucrats in power who just want to red-tape the act of anything to do with guns. There is no interest in the actual safety or protection of our rights. The mere fact that these power-hungry fiends are trying to ruin our great state of Oregon is deeply saddening and only helps turn us into one of the countless states with no respect for the constitution. Abide by the constitution. This "law" is illegal on top of being highly immoral.
